

Workday Consultants & Managers – Accenture

Career opportunity with global market leader

When you join Accenture you can make great ideas happen for some of the world's largest and most dynamic companies. With our global presence, broad range of competencies, industry know-how and business process skills, we collaborate with clients to cultivate ideas and deliver results. From design to implementation, our end-to-end services help our clients achieve operational excellence by improving analytics-based decision making, financial management, customer service excellence, supply chain management and human resource management. Choose a career at Accenture and enjoy an innovative environment in which challenging and interesting work is part of daily life.

Right now we are looking for Workday Consultants and Managers to Copenhagen

Turn your ideas into business improvements – join Accenture's Workday practice to make great ideas happen for some of the world's largest and most dynamic companies and their organisations.

Do you have experience in Workday or similar cloud-based HCM systems? Are you driven and results-oriented with a passion for delivery? Being part of our winning team could be the next step you are looking for in your career.

Your Colleagues and Career Opportunities

We will give you the opportunity to grow personally and professionally in a dynamic environment. Our projects are built on cooperation and teamwork and you will find yourself working together with other talented, passionate and dedicated colleagues, all working towards a shared goal.

Workday consulting professionals at Accenture specialize in the design, development, integration and delivery of business process and industry solutions for our clients. Working at Accenture, you will utilize your core business, technology and industry expertise and be part of Accenture's global network, enabling our clients to become high performing businesses. Our consultants act in various roles and are responsible for delivering large-scale transformation programs aimed at helping our clients achieve measurable business value.

Investing in you & Balancing your priorities

At Accenture we believe that quality comes from within and we invest considerable resources in the development of your professional competencies. You will receive on-going training that builds and extends your skills on a continuous basis, allowing you to develop tailored expertise quickly. You will become part of a team with significant visibility in the Nordic organization and Accenture supports international assignments and transfers, should you during your career desire to test your wings outside Nordic. Our employees are our most important asset and we provide an environment that encourages a healthy work/life balance. For example, we offer working from home when the project allows it. You will get your own career counselor who interacts with you on a regular basis, ensuring you a career path that suits your needs and ambitions. Through our buddy network you will have easy access to knowledge and networks both on a professional and a social level.

Qualifications

We are looking for highly motivated individuals who meet the following criteria:

- Bachelor/Master of Science degree
- Experience of major HCM system implementations
- Ability to work and deliver creatively and analytically in a problem-solving environment
- Fluency in English
- Ability to meet client travel requirements, when applicable

Additional desirable experience could include:

- Specialist knowledge of HR functions and processes
- Experience of Workday, or similar cloud-based applications
- Workday certification

Our commitment to you

- Your entrepreneurial spirit and vision will be rewarded, and your success will fuel opportunities for career advancement.
- You'll make a difference for some pretty impressive clients. Accenture serves many of the Fortune Global 100 on high-profile projects.
- Opportunities to learn daily through training, assignments and collaboration with experts across the company.
- Access to leading-edge technology.
- Along with a competitive salary, Accenture offers a comprehensive package that includes excellent benefits
