EFFICIENCY WINS.

## Head of Global Enterprise Applications

### About Nexperia

We at Nexperia are the efficiency semiconductor company. We deliver over 70 billion products a year and as such service thousands of global customers, both directly and through our extensive network of channel partners. We are at the heart of billions of electronic devices in the Automotive, Mobile, Industrial, Consumer, Computing, and Communication Infrastructure segments.

There are not many companies around that have the (in house) supply chain manufacturing capability, logistical savviness and processes in place to pull this off. It has made us a leader in Small Signal Discretes, Logic and PowerMos semiconductor products. At Nexperia we believe that an efficient company creates efficient products. Products that are efficient in power consumption and efficient in space usage by offering industry leading small packages. All of this complemented with best in class quality levels and an extensive portfolio that meet the stringent requirements set by the Automotive industry.

Led by our lean and passionate team, we are teaming up with our customers, partners and with the communities in which we have 11,000 employees to create the best standard semiconductor components available in the market. It's a team effort. We call it: TeamNexperia. And it is about doing things together. Join us as we build a new company with decades of experience combined with the passion of the new generation.

### Your responsibilities

- This role is responsible for the Enterprise Applications function throughout Nexperia.
- Establish metrics, key performance indicators, and service level agreements to continually improve the performance of IT operations.
- Lead global, strategic technology initiatives to build and maintain key elements of the firm's enterprise applications and associated project portfolio.
- In conjunction with OCIO, establish and maintain strong, strategic partnerships with vendors and service suppliers.
- Coordinate projects/resources with the IT project management office (PMO). Ensure all project deliverables, budgets, and timelines are met.

### Candidate Profile

- Lead a team of BPE and support analysts maintaining and supporting the global applications of Nexperia (SAP, Workday, BI to name a few)
- Strong leadership and management abilities. Ability to lead cross functional project teams in implementing projects of a complex nature.

- Persuasive, professional communication style. Capable of communicating complex, technical topics to a wide variety of audiences. Ability to interact with senior management and influence decision makers
- Ability to see the "big picture" across such areas as private and public hosted infrastructure and services, identity management, security, telecommunications, enterprise storage and big data opportunities, end user experience, and training/education

### Candidate requirements

- Minimum Bachelor's/Master degree in IT, Computer Science, Electronics, or related field, or equivalent industry experience required.
- 10+ years of relevant IT experience in designing and deploying enterprise level applications systems infrastructure (Experience in network security and/or development of IT Technical Architecture plans will be an added advantage)
- Excellent understanding of the impact of IT solutions at the operational, organizational and financial level of the business and able to influence the business in their approach towards IT.
- Ability to collaborate and partner with business, IT and External Service Providers in defining and executing large projects and change programs.
- Team player that is open to ideas from others.
- Prince2 or PMI certification a plus
- Experience with outsourcing of IT services, RFP execution, vendor selection
- Experienced in introducing new concepts of working
- Continuous drive for improvement

Preferably, location is Hamburg, Germany (Alternatively Manchester or Munich)

You must be able to communicate in German and are fluent in English

### You will join a passionate team

### About NXP

NXP has announced a binding agreement to sell its Standard Products business to a consortium of financial investors consisting of Beijing Jianguang Asset Management Co. Ltd ('JAC Capital') and Wise Road Capital LTD ('Wise Road Capital'), leading to a stand-alone world-class leader in Discretes, Logic and PowerMOS to be named Nexperia. The business will be operated by the Nexperia management team which will be responsible for Nexperia day-to-day business operations and productions. Investors regard Nexperia as a global company and consider the best support to global customers is a key factor for the success of the new company. JAC will continue to make investment to support Nexperia management team and the business including R&D activities, customer supports and growth aspirations. The transaction is expected close in the first quarter of 2017, pending all required regulatory approval and employee representative consultations. Transaction is a positive accomplishment for all parties involved, enabling NXP to continue to focus on its HPMS business, and furthering its Secure Connections for a Smarter World strategy. As stand-alone global powerhouse, Nexperia will continue the product portfolio (Discretes, Logic, PowerMOS) of today. Nexperia will decide efficiently by its own growth strategies and associated investments.
