

Health & Public Sector Strategy Manager - Accenture Strategy

Accenture is a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. Combining unmatched experience and specialized skills across more than 40 industries and all business functions—underpinned by the world’s largest delivery network—Accenture works at the intersection of business and technology to help clients improve their performance and create sustainable value for their stakeholders. With more than 394,000 people serving clients in more than 120 countries, Accenture drives innovation to improve the way the world works and lives.

Who We Are and What We Do

Business, government and not-for-profits turn to Accenture Strategy to develop the strategies they need to stay ahead in this increasingly digital-first world. That’s because Accenture Strategy’s home is at the intersection of business strategy and technology; we recognize that a strategy without the technology to back it up is just an idea.

Accenture Strategy is present across all major industries and work with some of the most esteemed and attractive companies nationally and internationally. At current, we see a strong and increasing demand for our public strategy offerings. We are looking for experienced and proven talent who can help us continue to bring our services to life within the Health & Public Service and help strengthen our strategy practice around this segment.

Accenture Strategy is a distinct business within Accenture and a top 5 strategy consulting firm, with more than 8,000 people. Our goal is to enable our clients to be digital disruptors, not to be disrupted. Come and join us to shape the future.

Your Role

There will never be a typical day at Accenture, but that’s why people love it here. The opportunities to make a difference within exciting client initiatives are limitless in this ever-changing business landscape. That said, here are some of the things you’ll do:

- Help clients understand leading-edge technology capabilities and the transformational impact they may have on their business
- Supervise or lead small strategy teams on client engagements of up to 2-3 people focusing on core business issues that need to be addressed
- Structure and perform analysis and primary research that address business issues and generate insights about client and industry business performance improvement
- Develop business cases and plans that are detailed, actionable and reflect Accenture Strategy’s deep industry, IT and business process acumen
- Present at team and client meetings, and determine the most practical way to drive lasting results based on your insights
- Help our clients build the capabilities they need for growth, innovation and sustainable high performance

Investing in you & Balancing your priorities

At Accenture, we believe that quality comes from within and we invest considerable resources in the development of your professional competencies. You will receive on-going training that builds and extends your skills on a continuous basis, allowing you to develop tailored expertise quickly. You will have direct access to state-of-the-art technologies, tools and developer kits from all the major hardware and software houses, keeping you on cutting-edge of your area of expertise.

When you join Accenture, you can make great ideas happen for some of the world’s most dynamic companies. With broad global resources and deep technical expertise, we collaborate with clients to cultivate ideas and deliver results. Choose a career at Accenture and enjoy an innovative environment where challenging and interesting work is part of daily life.
