

TEAM LEAD - BUSINESS INTELLIGENCE RELEASE MANAGER

DO YOU WANT TO MANAGE THE DEVELOPMENT AND RELEASE CYCLE FOR GLOBAL BUSINESS INTELLIGENCE SOLUTIONS IN A UNIQUE GROWTH COMPANY?

PANDORA is currently looking for a Business Intelligence RELEASE MANAGER with SCRUM Experience in Global IT who will be responsible for DESIGNING AND EXECUTING the global development cycle ACROSS ALL REGIONS IN CLOSE COOPERATION WITH THE EXISTING IT BUSINESS INTELLIGENCE DEVELOPMENT TEAM.

Business Intelligence is a strategic focus area and very important for PANDORA across the entire global business. Business Intelligence needs are relevant for reporting purposes, operational execution, and analytical needs to drive key business decision making on a daily basis.

You will be designing, managing and executing an ongoing development cycle for our data warehouse in close cooperation with the existing IT and Business BI departments. Releases can include technical updates, change requests as well as new functionality. You will ensure that the IT BI department delivers solutions to business in time and on right quality using relevant test procedures. You will also participate in prioritization sessions with business and our regional teams where all relevant information must be collected for proper decision-making.

You will play a central role in the Global IT BI team and you will be part of a global team of developers and team leads working in an agile environment. Why we value that you have a great understanding of / knowledge from working with SCRUM.

The ideal candidate hold a broad experience gained through different roles and functions. Enabling you to take on this exciting role where your will be giving the opportunity to navigate and act within both the role as Release Manager, Scrum Master and product owner depending on the assignment and situation. Giving you the opportunity to put all your previous experience into play in order to full fill this role as teamlead in the best possible way and truly embrace an agile organization.

Main responsibilities:

- Design, maintain and communicate development cycle on our global datawarehouse
- Optimizing the release schedule, timelines and predictability of same
- Optimize processes surfacing the development cycle such as unit-, functional-, integration- and User Acceptance Test.
- Constant improve quality on releases for minimal impact on support tickets following a release
- Actively monitor and manage performance of development and test teams
- Tracks all activities against plan
- Identify and organize the required resources for the release pipeline together with regional team leads
- Works closely together with project manager(s) and BI managers for proper prioritization of deliverables
- Ensure transparency of release contents to all relevant parties at all times
- Support department solutions architect to implement BI architectural road-map
- Together with solutions architect build and execute training for developers

Qualifications:

- +5 years as Release Manager/Product Owner/Scrum Master in a technical environment - preferably in larger international organizations and preferably from agile environments
- Preferably knowledge/experience from Microsoft BI stack:
 - SQL Server, Integration Services, Analysis Services, Master Data Services, Reporting Services or e.g.
- Preferably SCRUM experience
- Knowledge/understanding of BI/DW design and architecture

ABOUT PANDORA

PANDORA designs, manufactures and markets hand-finished and contemporary jewellery made from high-quality materials at affordable prices. PANDORA jewellery is sold in more than 90 countries on six continents through approximately 9,500 points of sale, including more than 1,600 concept stores.

Founded in 1982 and headquartered in Copenhagen, Denmark, PANDORA employs more than 15,000 people worldwide of whom approximately 10,400 are located in Gemopolis, Thailand, where the company manufactures its jewellery. PANDORA is publicly listed on the NASDAQ Copenhagen stock exchange in Denmark. In 2015, PANDORA's total revenue was DKK 16.7 billion (approximately EUR 1.6 billion).

- Good communication, mentoring and presentation skills
- Strong technical understanding
- Previous experience from distributed teams (not mandatory)

We offer:

You will be part of a company in an exciting business area and work in an international hub of can-do spirited, passionate and performance-driven people. We are a busy international department, who work on different projects and solutions, help each other out and appreciate an informal and humorous tone.

Since it is a global role, 15-20 days of travel per year is expected.
You will report to Head of Global IT BI
