Technical Identity & Access Management Consultant

On behalf of NNIT are we recruiting for an Identity & Access Management Consultant

NNIT are looking for an Identity & Access Management consultant who is motivated by achieving ambitious targets within the Security area.

NNIT are focused on the rapidly evolving area of IAM. Our customers seek our expertise to define and set up the right governance, processes, roles & responsibilities, information-models, role-based models and access rules, as well as the right architectures. So we need to expand our present team with new team players. NNIT works with several different IAM vendors depending on client needs.

Currently NNIT has chosen Sailpoint and Omada as the preferred IAM platforms. Knowledge within these platforms is preferred but not mandatory for the role.

Your responsibilities as a consultant in Identity & Access Management

- Working directly with clients to drive identification of requirements & design of new IAM solutions
- Be part of preparing & delivering solution offers to clients
- Lead the IAM design from platform implementation to handover to operation
- Driving the migration strategies from old IAM solution to new solution
- Ongoing advisory towards internal and external stakeholder to ensure changes and optimizations to the implemented IAM Solution

You will join the Identity & Access Management team and will be able to make a difference within the security and compliance area. You will be part of a global team working on the implementation of projects. We value a strong social environment, knowledge sharing, and good discussions. We are agile in our services, approach, and mindset.

About NNIT

IT ADVISORY, DEVELOPMENT & OUTSOURCING

NNIT is a fast-growing IT company with ambitious goals. We supply IT services to large enterprises, the public sector and the life science industry - customers that demand high levels of quality and security. At NNIT, you can make your mark on some of the most challenging projects in the IT industry, on our journey forward as a company, and on your own career. We take on the responsibility for our clients' IT as if it were our own, and we live our values every day, so you should be able to see yourself in them. We are: Conscience driven. Value adding. Open and honest. We regard diversity as a strength and support equal opportunities for all. We encourage applications from people of all ages, genders, religions and ethnic backgrounds.

Join a high performance team making a difference to clients and NNIT, while striving to innovate and optimize.

The team is part of IT Operations Services responsible for everything from infrastructure and applications to complete orchestration and support of our customers' IT solutions. Our work processes are based on best practice and our procedures follow ITIL standards (IT Infrastructure Library).

Your qualifications and experience

You hold a Master of Science in Engineering, a Master's Degree in Computer Science or equivalent and have gained experience with Identity & Access Management - ideally you have min. 3 years of relevant experience.

You have strong planning, project management and problem solving skills with a passion for owning and driving services to completion, while maintaining compliance with defined policies, standards and practices.

You have excellent collaboration, communication and presentation skills and you can communicate clearly in Danish and English both orally and in writing.

NNIT offer's

NNIT offer you an excellent opportunity to grow your skills within an international world leading company performing to the highest professional standards. Your development is supported by advanced learning- and performance models to provide you with cutting-edge knowledge in your specialist field. NNIT will build your future career by focusing on continuously career development.
